PLEASE NOTE: CONTENT IN THIS DIGITAL HANDOUT MAY VARY BASED ON THE PROGRESS OF EACH INDIVIDUAL COURSE

DESIGN THINKING

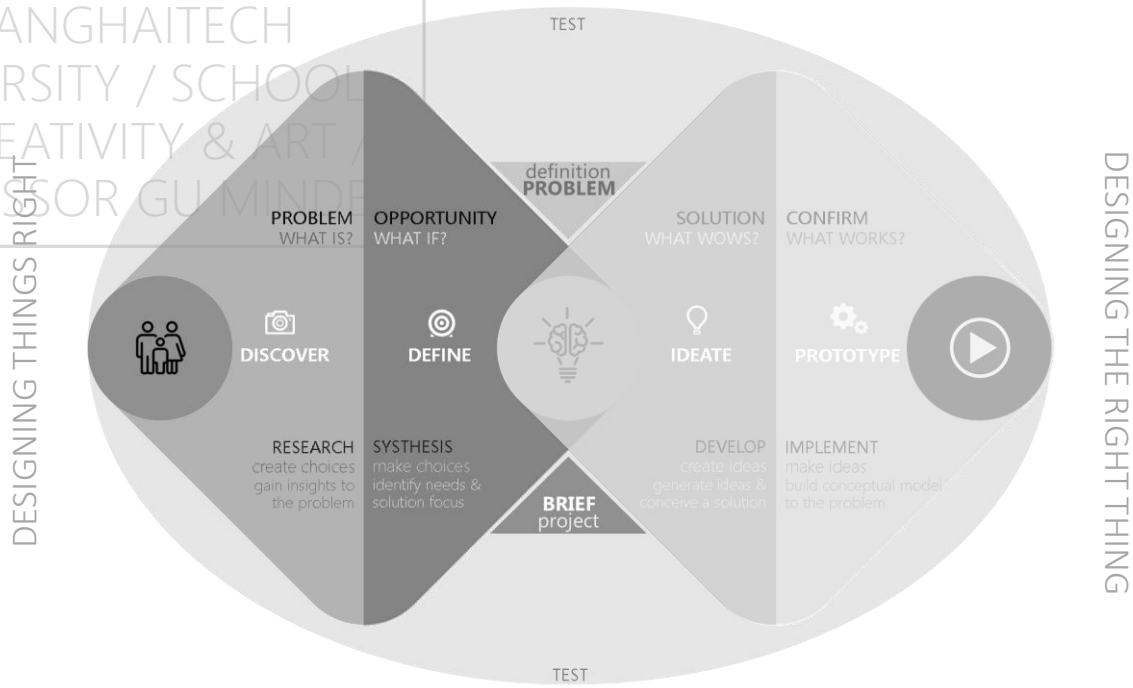

Discover

DISCOVER

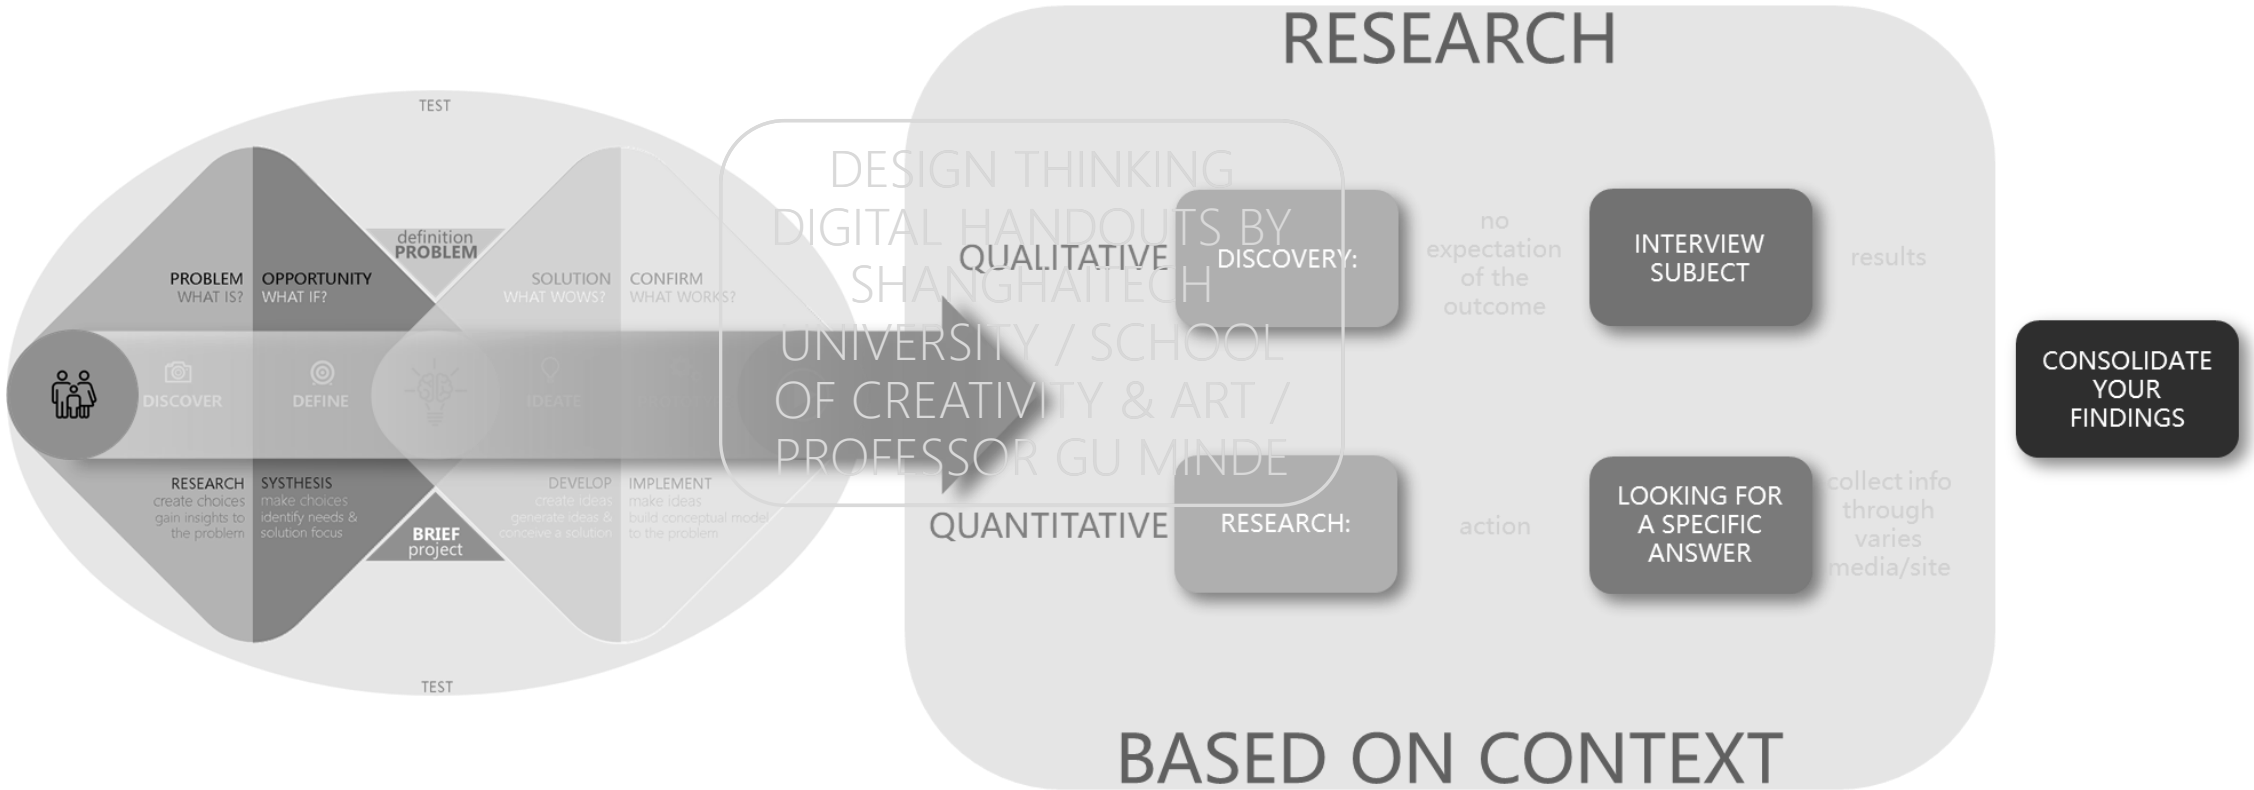

IN THE DISCOVER PHASE WE WANT TO:

- Learn about the problem.
- Learn who the stakeholders we aim for are and who those affected are.
- Learn what they want, need, aspire to, and feel.

CONTEXTS VS CONTENT

WHAT ARE USER CONTEXTS

THE WHOLE SET OF CONDITIONS AND SITUATIONS THAT MAY INFLUENCE HUMAN'S behaviors, emotions, and interactions with respect to others, to an objects, to themselves, etc.

Contexts are typically dynamic and may have any number of variables such as time, location, culture, people, emotional states, etc. that subjectively and holistically coalesce in the actor's mind.

Context: The circumstances that form the setting for an event, statement, or idea, and in terms of which it can be fully understood and assessed.

- Webster

For example: The mobile phone exist in varies context may be used in different contexts: social, relaxing, shopping, traveling, bored …

TOOLS: OBSERVATIONS

- Be a good listener
- No opinion, no comments
- Do not rush the subject
- Response to his/her emotion
- listen, listen and then listen
- Again, beware of your body & facial expression
  - Boredom
  - Yawning
  - Disinterest
  - Occupied
  - Glance at phone or watch
  - ...

CRITICAL THINKING

CRITICAL THINKING MEANS THE ABILITY TO DISTINGUISH RIGHT FROM WRONG FROM SUBJECTIVE TO OBJECTIVE. Making judgments and analyses, approaching problems without being bound by beliefs or assumed knowledge, and maintaining a rational and objective attitude (or intuition) towards issues and things.

YOU SHOULD NOT RESPOND TO EVERYTHING IN A "NEGATIVE" OR "CRITICAL" ATTITUDE,

but encourages a person to think and analyze, and to evaluate things objectively without any personal color or prejudice.

ETHICALS

RESPECT:

We honor participants' limits and value their comfort.

RESPONSIBILITY:

We act to protect people's current and future interests.

HONESTY:

We're truthful and timely in communication.

DESIGN THINKING

Empathy

EMPATHY

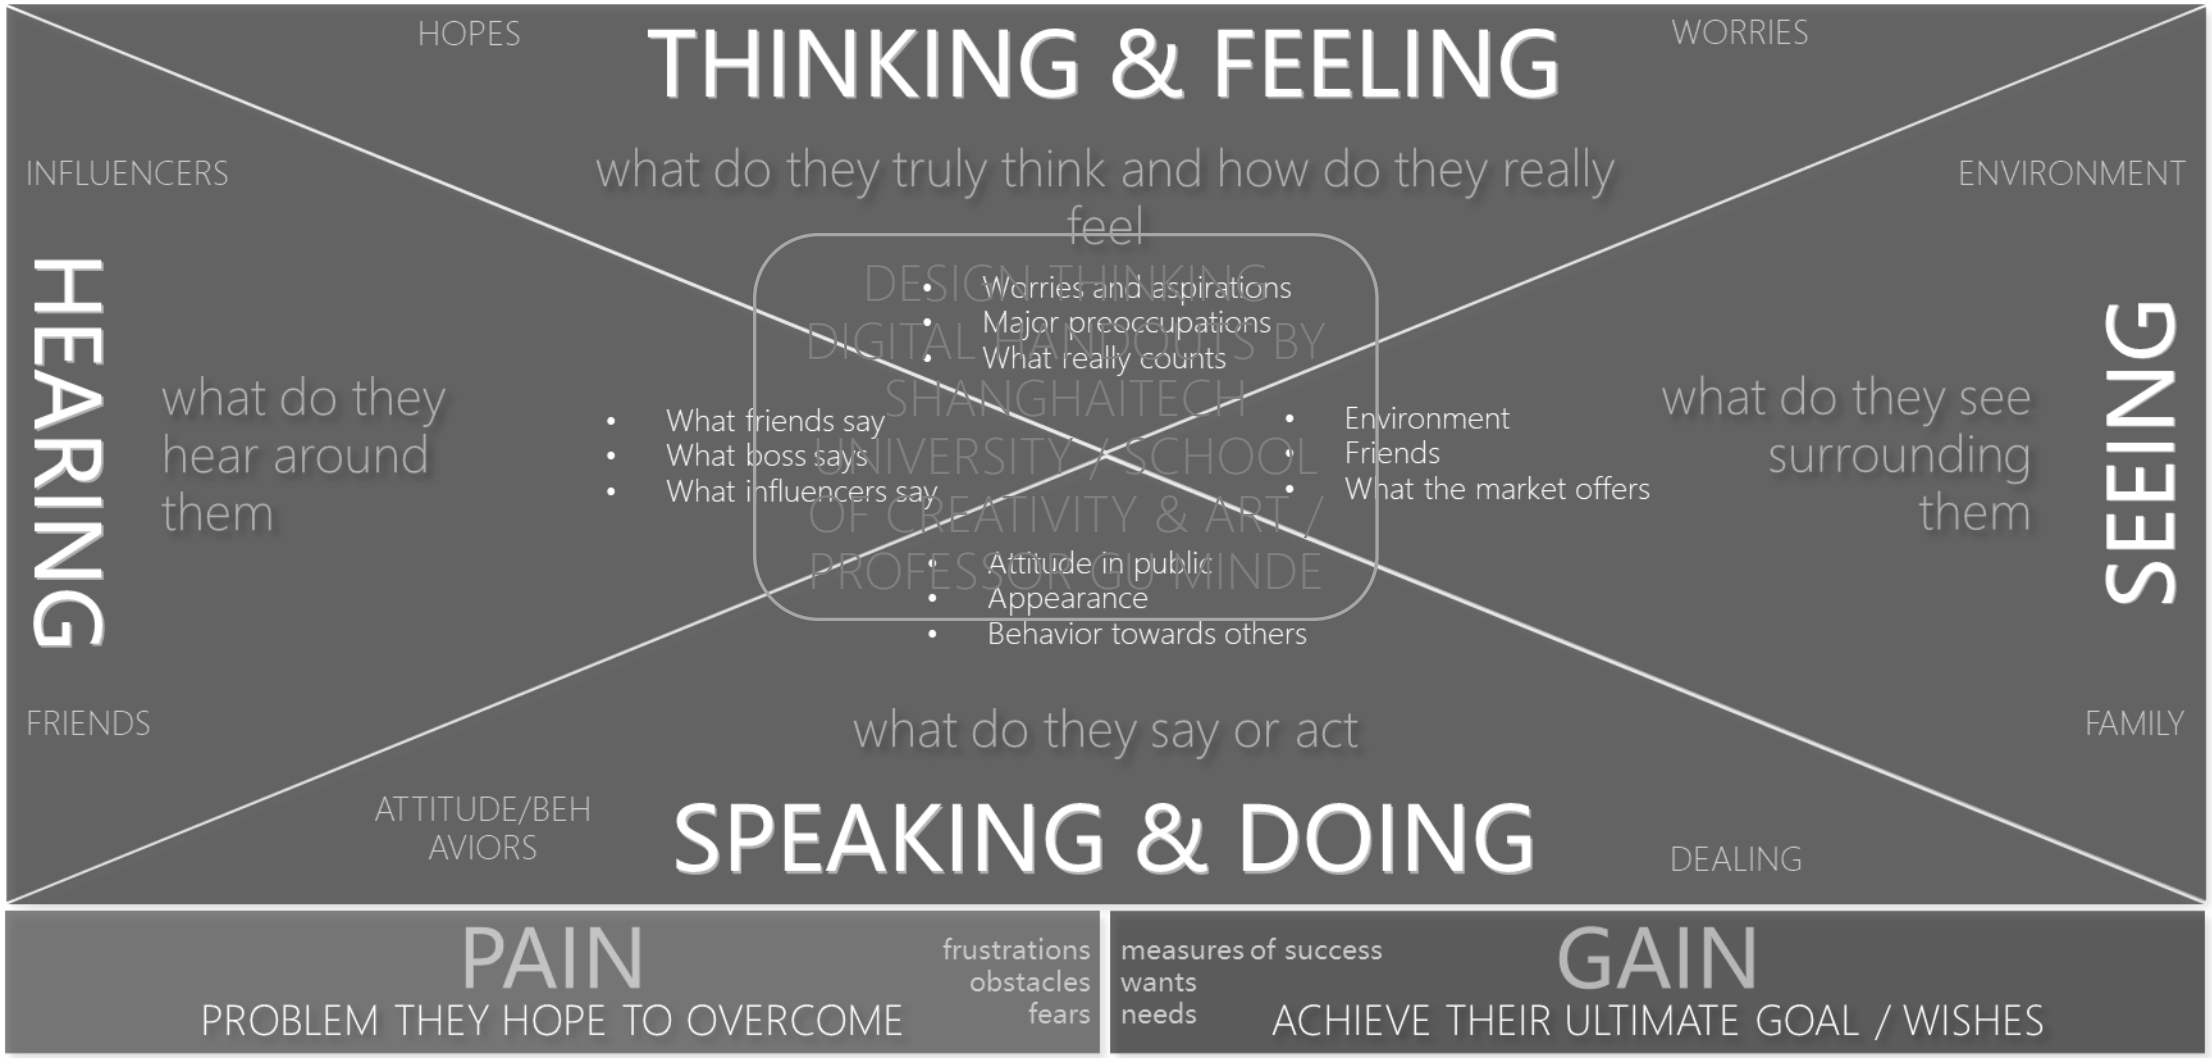

Understanding another person's experience by imagining oneself in that other person's situation. One understands the other person's experience as if it were being experienced by the self, but without the self actually experiencing it.

Project
- Parking Garage

PROJECT
PARKING GARAGE

1. Find problems in a closed parking garage.
   - Your discovery shall include all potential problems that occur in a closed environment.
2. Discuss among team members, to establish the objective.
   - Spend time after class to observe a parking garage. (shanghai tech is not the best example)
   - Justify your objective accordingly after observation. (qualitative + quantitative data)
3. Explain your solution in any format, to best convey your idea.
   - You only need to focus on 1 particular problem discovered and provide the solution; no need to convert the entire parking garage.

PROJECT
PARKING GARAGE

I'm having trouble finding my car, locating my keys in my purse, and reading signs clearly. Could it be that there's not enough lighting? However, upon closer examination, the real issue might not be the lighting, but rather my sunglasses. Once I identify the actual problem, I can work on finding a solution.

Presentation –
The next class

PRESENTATION
PARKING GARAGE

1. Presentation deck for 10/17

A. Please give your project a name & include all team member's names/responsibilities.

B. During the presentation, all team members need to be involved.

C. Present your project in PPT format. You have 8 minutes. The presentation contains:

1. Project Creativity; is the idea unique?
2. Expressiveness; idea conveyed clearly?
3. Team coordination; good teamwork?
4. Visual communication; does the presentation look nice and clear?
